SUMMARY

Motivated and detail-oriented **B.Tech Information Technology** graduate with a solid grounding in programming, **data analytics, SQL, and data visualization**. Proficient in **Excel, Python, Power BI, and Tableau**, with a focus on delivering actionable **data-driven insights**.

WORK EXPERIENCE

Labmentix Technology (Remote)

Data Analytics Intern

July 2025 - January 2026

- Performed data cleaning, validation, and exploratory data analysis to improve data accuracy on a structured dataset using Excel, SQL, and Python.
- Supported data-driven decision-making through structured analysis and visualization.

EDUCATION

Shri Ramswaroop Memorial College of Engineering and Management

Bachelor of Technology (Information Technology) - 8.08

October 2021 - May 2025

PROJECTS

UBER SUPPLY DEMAND GAP - Exploratory Data Analysis | Python | SQL | Excel [🔗](#)

July 2025

- Analyzed Uber ride request data to identify supply–demand gap and high cancellation rates.
- Performed data cleaning and EDA using Excel, SQL, and Python to evaluate request patterns.
- Identified major demand gaps during morning (5–10 AM) and evening (5–9 PM), suggested better driver allocation to reduce cancellations and improve ride fulfillment.

WALMART SALES ANALYSIS - Python | SQL | Excel | Power BI | [🔗](#)

December 2025

- Analyzed Walmart transaction data to identify sales trends, product demand, and branch performance.
- Performed data cleaning and EDA using Python, SQL, Excel, built an interactive dashboard using Pivot tables.
- Identified top-performing branches, high-revenue product categories for data-driven decisions.

HR ANALYTICS DASHBOARD - Excel [🔗](#)

January 2026

- Analyzed employee data to identify key drivers of workforce attrition.
- Performed data cleaning and EDA using Excel, SQL, and Python, built dashboard to analyze attrition trends.
- Found higher attrition among low-salary and overtime employees, providing insights for retention strategies.

SKILLS

- **Languages:** Python
- **Database:** SQL, MySQL
- **Tools:** Power BI, Tableau, Excel, VS Code, Jupyter Notebook, Google Colab
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn
- **Concepts:** Data Cleaning, EDA, Data Visualization, Statistics, Dashboarding, DBMS

CERTIFICATIONS

Data Analytics with GenAI (Physics Wallah)

- Currently pursuing a 6-month certification in Data Analytics covering SQL, Python, Excel, visualization tools, and Generative AI.

IBM - Artificial Intelligence Fundamentals [🔗](#)

- Gained foundational knowledge of AI concepts, data-driven decision-making, and real-world AI use cases.

Accenture North America - Data Analytics and Visualization Job Simulation [🔗](#)

- Analyzed datasets to uncover content trends and deliver insights via presentations for clients.

Deloitte Australia - Data Analytics Job Simulation [🔗](#)

- Performed data analysis using Excel and created an interactive dashboard with Tableau.
